Response to Amendment

Status of the Claims

1. Claims 1, 4, 5, 7, 8, 12, 19, 20, 22, 23, and 25-28 are pending in the instant application. Claims 1, 4, 5, 7, 8, 19, 20, 22, 25, and 26 stand withdrawn from further consideration by the examiner, pursuant to 37 C.F.R. § 1.142(b), as being drawn to a non-elected invention, the requirement having been traversed in Paper No. 9. Claims 12, 23, 27, and 28 are currently under examination.

35 U.S.C. § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. The previous rejection of claims 12 and 27 under 35 U.S.C. § 102(b) as being anticipated by Cox et al. (1988), is hereby withdrawn in response to applicants' arguments.

35 U.S.C. § 103(a)

- 4. The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Serial No.: 08/573,569 Applicants: Maassab et al.

Subject matter developed by another person, which qualifies as prior art only under subsection (f) or (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

5. The previous rejection of claims 23 and 28 under 35 U.S.C. \S 103(a) as being unpatentable over Cox et al. (1988) in view of Maassab et al. (1982), is hereby withdrawn in response to applicants' arguments.

37 C.F.R. § 1.75(c)

6. Claims 27 and 28 are objected to under 37 C.F.R. § 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. The claims reference a non-elected claim. Applicants are required to cancel the claims or appropriately amend them (i.e., A vaccine comprising a reassortant influenza A or B virion comprising: a polynucleotide coding for the surface protein HA ... and a polynucleotide coding for PB2 which consists of the sequence of SEQ ID NO.: 15 ...). Refer to M.P.E.P. § 608.01(n).

Allowable Subject Matter

7. Claims 12 and 23 appear to be free of the prior art and are allowable. Claims 27 and 28 would be allowable if properly amended.
